PROFESSIONAL SUMMARY

Software Developer with 1 year of hands-on experience developing web applications and monitoring solutions using React.js, JavaScript, Go, PHP Laravel, MySQL, ClickHouse, and REST APIs. Experienced in building reusable responsive UI components, integrating APIs, developing backend services, and working with database-driven applications. Hands-on experience with Linux and Windows monitoring modules, dashboards, alerts, logs, and system insights, with a strong focus on debugging and feature development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, HTML5, CSS3, Material UI

Backend: Go, PHP, Laravel, REST APIs

Databases: MySQL, ClickHouse

Tools: Git, GitHub, Postman, Linux, SSH, VS Code

PROFESSIONAL EXPERIENCE

Software Developer

Nov 2025 – Aug 2026

Linuxoft, Tamil Nadu

- Developed and maintained monitoring and management applications using **React.js, Go, PHP Laravel, MySQL, and ClickHouse**.
- Built reusable and responsive React.js components for dashboards, monitoring modules, alerts, logs, and system insights.
- Integrated REST APIs with frontend applications and worked on backend services for retrieving and managing application data.
- Developed and enhanced Linux and Windows monitoring modules for displaying system and resource-related information.
- Worked with MySQL and ClickHouse for application, monitoring, log, and audit-related data.
- Debugged and resolved issues across UI, API, backend, and database layers and implemented feature enhancements.

Software Trainer

Jul 2025 – Aug 2025

CADD Expert Training Institute, Tenkasi, Tamil Nadu

- Trained students in HTML, CSS, JavaScript, responsive web development, and practical web projects.
- Guided learners through frontend development exercises and helped troubleshoot coding and design issues.

PROFESSIONAL PROJECTS

Argus Monitoring & Observability Platform

React.js | Go | MySQL | ClickHouse | REST APIs

- Worked on the real-time Argus monitoring product, developing monitoring dashboards and reusable React.js components for Linux and Windows environments.
- Integrated REST APIs to retrieve and display real-time system health, services, processes, logs, alerts, and resource information.
- Worked with Go backend services and MySQL/ClickHouse for application, monitoring, log, and audit data.

LRO – Legal Rights Organisation Management System

PHP | Laravel | MySQL | REST APIs

- Worked on the real-time LRO (Legal Rights Organisation) management product for member and case management using Laravel and MySQL.
- Implemented and enhanced REST APIs, CRUD operations, authentication, and role-based authorization.
- Developed responsive interfaces and integrated frontend functionality with backend services.

EDUCATION

Bachelor of Computer Applications (BCA)

Sri Parasakthi College for Women, Courtallam, Tenkasi

2022 – 2025

LANGUAGES

Tamil • English • Hindi
